

We're committed to helping protect you and your loved ones.

Family Protection

While adults may be targeted by identity thieves for the money in their accounts, a child represents an entirely different type of opportunity—a clean slate for opening new lines of credit that may go unnoticed for years. With ID Watchdog®, you have an easy and affordable way to help better protect the identities of you and your loved ones of all ages.

Why Choose ID Watchdog for Your Family

ID Watchdog helps better protect against identity thieves from opening new accounts in your loved ones' names with exclusive features for adults and children. We give you and your family greater peace of mind:

- We begin monitoring your family's identities from the day they are added to your account.
- All adults receive their own account to customize based on their preferences and can opt to share their alerts with other adults in the plan.
- Every family member is covered under identity theft insurance¹ in the event they become a victim of identity theft.

We're here for you and your family 24 hours a day, 7 days a week.

1-866-513-1518

A child's stolen identity can be used to apply for credit or commit other types of fraud.

More features that help protect children than any other provider.

- Social Account Monitoring
- Registered Sex Offender Reporting
- Equifax Child Credit Monitoring
- Dark Web Monitoring²
- High-Risk Transactions Monitoring³
- Subprime Loan Monitoring³
- Public Records Monitoring
- USPS Change of Address Monitoring
- Identity Theft Resolution Specialists
- Resolution for Pre-existing Conditions

(1) The Identity Theft Insurance is underwritten and administered by American Bankers Insurance Company of Florida, an Assurant company. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions. Review the Summary of Benefits (www.idwatchdog.com/terms/insurance). (2) Dark Web Monitoring scans thousands of internet sites where consumers' personal information is suspected of being bought and sold, and is constantly adding new sites to those it searches. However, the internet addresses of these suspected internet trading sites are not published and frequently change, so there is no guarantee that ID Watchdog is able to locate and search every possible internet site where consumers' personal information is at risk of being traded. (3) The monitored network does not cover all businesses or transactions.
